Labcold Cubed Ice Makers

Labcold Cube Ice Maker LITV-DP35H

Produces pure, crystal clear cylindrical 40g ice nuggets from simple tap water which have the advantage of being slower to melt than conventional ice cubes.

Although this ice maker uses an innovative and clever spray system, using flexible nozzles to avoid scale or time buld-up it is recommended that a hard water filter is used to prevent the build up of limescale.

Specifications

Product Code	LITV-DP35H
Style	Free standing
UK Warranty	1 Year
External Dimensions (mm) HxWxD	894-944 x 465 x 595
Net Weight	45kg
External Material	Stainless Steel
Ice Storage	20Kg
Daily Ice Production	43Kg

Specifications (cont.)

Automatic Production	Yes
Feet	4
Water Use (litres per hour)	3
Power Consumption Kwh/24hrs	20.8
Ambient Operating Temperature	16°C to 32°C

Features

- 43kg daily ice production
- Automatic production
- Stainless steel exterior
- Air cooled
- 20kg storage capacity
- Integral storage bin
- Space efficient
- Eco friendly refrigerant
